MEMORANDUM FOR: Deputy Director (Administration)

ATTENTION:

25X1A6D

SUBJECT: Security Alarm Service - Records Building

25X1A9A

1. Reference is made to your memorandum of 9 September, subject as above, in which you inquired into the necessity of an alarm installation in the Records Building and, if deemed necessary, the possibility of obtaining such protection from a firm other than possibly at a lower cost.

25X1

2. Because of the large volume of material classified up to and including Top Secret which will be stored on open shelves in this building, I feel that the alarm system, similar to that presently in operation in the Vital Records Repository, is required. I further recommend that the Company be used for the installation of the alarm system, because of the risk involved in dealing with smaller local companies whose products, installations and service have not been tested and proven satisfactory.
